Borwicz' Speech

1. Jews in Poland are many times stronger today than before the war, despite the enormous decrease in Poland's Jewish population. Their strength stems from Communism and the USSR: twin influences which permit world Jewry to augment its importance. Jews can dominate the world if, under the flag of Communism, they destroy European culture, tear down the Church's influence, and uproot the anti-Semitism which threatens them in Europe.
2. Destruction of the old, worn, European culture, which has been transmitted to America, will make way for a new order. It will enable the Jews to govern other nations.
3. The capitalistic "Jews of the West" think only of themselves. They are ruthless in action. They are ready to sacrifice the lives of the Jewish masses if by so doing they can further their own interests. Capitalistic Jewish policy is responsible for the Jewish grave which is Poland.
4. Jewish capitalists of the West own 80% of the world's gold; they possess great power in the capitalistic countries. American, English, and French Jews have cornered markets and capital. They control the film industry, the press, and the radio: propaganda weapons they refuse to employ on behalf of the Jewish Nation, humanity, and the hard-working masses.
5. Before the war, Jewish capitalists fought the emigration of poor and destitute Jews to the West. Many legal means, such as labor laws and professional autonomy, were employed to limit entry to Jewish capitalists and politicians. Western societies, beginning with Poland, are fundamentally anti-Semitic when ownership of land is involved. They are reluctantly disposed toward Jews when they believe themselves threatened in their professional activities; they are inimical when they meet with commercial competition. Influenced by this attitude of the Western capitalists, the Jews themselves endeavored to keep the hungry proletariat in Eastern Europe, and, in accordance with the policy of the Jewish capitalists, to keep the poor hawkers from spoiling the fine streets of the West. in Germany and Austria exposed the Jews to persecution and caused the flight of thousands of families. This tide of Jews then flooded Poland—already a stronghold and base for the Jewish proletariat. The civilized and capitalistic West again defended its frontiers, colonies, and dominions against the Jewish invasion. They would accept only Jewish capital.

6. When Hitler defeated Poland and then Europe, millions of Jews living chiefly in the East were cruelly killed in the crematoria of Oswiecim, Majdanek, Belzec, and Treblinka. Only then did the Jewish capitalists, behind their oceans and seas, start a paper war of protest and intervention which was as helpful to the murdered Jews as incense to a corpse. Meanwhile, they continued to make enormous profits from the war.
7. Jewish capitalists even promote socialism, but only because there is a difference in the real results of the political concepts of Mr. Baruch and Mr. Vandervelde, leader of the International.
8. The real friend of the Jews and the Jewish Nation is the USSR. This is proved by the position of the Jews in Poland, the warm Soviet support for a Jewish state in Palestine, and Soviet plans for the Jews to play a leading role in the world as the most powerful and dangerous assault weapon against the capitalistic countries. Polish Jews are backing the efforts of the USSR. They are loyally and sincerely devoted to that great country.
